### IMPORTANT INFORMATION REGARDING YOUR PLAN

We want you to enjoy the many features and benefits of your retirement plan. We also want to make sure you understand your plan and investment fees. The enclosed report details the types and amounts of fees that may apply to your account, depending on which features and investments you choose.

The report is organized into multiple sections:

- **General Plan Information** offers an overview of your plan.
- **Potential General Administrative Fees and Expenses** may be charged against everyone's account in the plan to cover the day-to-day costs of operating the plan.
- **Potential Individual Fees and Expenses** are associated with certain plan features or services and apply only to participants who use the particular features or services.
- **Investment Information** details each of the options available in your plan. This section features up to three tables, depending on what your plan offers. This may include investments with variable rates of return, such as mutual funds or those with fixed or stated rates of return, such as some stable value funds. Details include:
  - **Historical performance** for each variable option and its "benchmark," typically a broad market index used for comparison.
  - **Expenses**, including fund operating costs which are automatically deducted from your investment returns. (The specific expenses that apply to you will depend on how your account is invested.)

You may receive this information electronically by signing up for *e-documents* at [transamerica.com/portal/jhm](https://transamerica.com/portal/jhm). **Potential General Administrative Fees and Expenses**

Administrative Fee — Per Account	<p>The plan incurs annual general administrative fees for ongoing plan administrative services (e.g., recordkeeping) of \$29.00 per participant account (accrued monthly). On a quarterly basis, fees will be deducted as a fixed dollar amount from your account based on the total number of participant accounts at the time the deduction is taken, unless paid from other sources. All of the revenue (e.g., 12b-1 fees, administrative fees) that Transamerica Retirement Solutions or its affiliates receive from the plan's investment options is credited back to your account on a monthly basis as a Plan Service Credit.</p> <p>When applicable, general administrative fees other than the charge above, for administrative services (e.g., legal, accounting and auditing), may from time to time be deducted as a fixed dollar amount from your account. A general administrative fee of \$18.76 will be deducted as a fixed dollar amount from your account.</p> <p>The actual amounts deducted from your account, as well as a description of the services to which the fees relate will be reported on your quarterly benefit statements.</p>
Administrative Fee — Pro Rata	<p>When applicable, other general administrative fees for plan services (e.g., legal, accounting and auditing), may from time to time be deducted as a percentage of assets from some or all investment options held in your account.</p> <p>The actual amounts deducted from your account, as well as a description of the services to which the fees relate will be reported on your quarterly benefit statements.</p>
Plan Service Credit	<p>Plan service credit represents an expense refund for one or more of the investment funds offered by your plan. When applicable, a plan service credit is added to your account and lowers the effective annual expense ratios of the investment fund(s) for which a plan service credit applies. Any plan service credit will be reported on your quarterly benefit statements.</p>

**Investment Information**

This information is provided to help you compare the investment options under your plan. You may obtain, free of charge, a paper copy of your fee disclosure notice and other investment information posted at [transamerica.com/portal/jhm](https://transamerica.com/portal/jhm), by contacting Transamerica at 800-755-5801 or by writing to Transamerica Retirement Solutions, 6400 C Street SW, Mail Drop 0001, Cedar Rapids, IA 52499, Attention: Fee Disclosure. The information available includes each investment option's issuer, objectives, goals, principal strategies, principal risks, holdings, turnover rate, value and updated performance and expense information; as well as a glossary of terms, information about calculating benefits, available distribution options and (where appropriate) prospectuses and annual reports.

The following table focuses on investment options that have variable rates of return, and shows fee and expense information, as well as investment performance for each investment option and that of the appropriate benchmark, or index. If your plan offers balanced, asset allocation or target retirement funds, which are comprised of a mix of stock and bond investments, you will see two broad-based benchmarks, a stock index and a bond index. Because they are made through a retirement plan, your investments in these funds are not subject to front-end or back-end loads, which are a form of sales commission charged at the time of purchase or sale. Please note the following:

- The investment performance of each investment option is shown net of (or after) fees, while the benchmark or index investment performance is reported on a gross (before fees) basis. If the option has less than a ten year history, the investment performance of both the investment option and the index are shown since inception, with the inception date shown after the investment option name. Returns of less than one year are not annualized. Performance prior to the inception date of the share class (if any) is based on returns of an older share class, which have been adjusted for expenses.
- Total Annual Operating Expenses of an investment option are the expenses you pay each year, which reduce the rate of return you earn. In some cases, a fund may waive or reimburse certain expenses. If a fund has waived expenses in the past year, you will see a different gross (G) (before waivers) and net (N) (after waivers) expense ratio. So while an investor could have been charged as much as the gross expense rate in the past year, they will only have paid the net expense rate because of the waivers. Fund specific operating expense details are available at [transamerica.com/portal/jhm](https://transamerica.com/portal/jhm).

- Shareholder-type fees, if any, are in addition to Total Annual Operating Expenses. Fees and expenses are only one of many factors to consider when you decide to invest in an investment option.
- You may also want to think about whether an investment in a particular option, along with your other investments, will help you achieve your financial goals.
- The performance data quoted represents past performance. Past performance does not guarantee how the investment option will perform in the future. Your investment in these options will fluctuate and you could lose money. Current performance may be lower or higher than the performance data quoted.
- The cumulative effect of fees and expenses can substantially reduce the growth of your retirement savings. Visit the Department of Labor's website for information on understanding your retirement plan fees at <https://www.dol.gov/agencies/ebsa/about-ebsa/our-activities/resource-center/publications/understanding-your-retirement-plan-fees>.

The following table focuses on investment options that have a fixed or stated rate of return and shows the annual rate of return, the term or length of time that you will earn this rate of return, and other information relevant to performance. (If you are already an investor in such option, please note that personalized rates of return for certain investments are shown on your benefit statements.) The fixed interest rate is net of any expenses and an annual operating expense ratio is not separately shown.

**Comparative Investment Chart - Table 2 Fixed Options**

Fund Name/ Type of Option	Return / Credited Rate	Term	Other
MetLife Guaranteed Account Stable Value	2.60%	01/01/2024 - 12/31/2024	The rate applies to new deposits/transfers and existing assets during the stated term, and the rate does not change during the term. The credited rate under the contract will never be less than 1.27%. Johns Hopkins is currently directing that fees to service providers amounting to .12% be paid from this contract. That would reduce the minimum amount credited to participants to 1.15%. An increase in fees paid to service providers could result in a lower minimum amount credited to participants.

**Shareholder Type Fees:** Amounts may not be transferred directly to competing options. Amounts transferred out may not subsequently be transferred to a competing option for 90 days. Amounts transferred out can be transferred back to this fund at any time.

This is a summary of the terms and conditions of the Contract. In the event of any inconsistency between this summary and the Contract, the terms of the Contract shall take precedence.
